### GLOSSARY:

The reporting period used to complete the Graduation and Employment Chart is determined by taking the program’s normal length of completion (including vacations and holidays rounded to the nearest whole number) in months multiplied by 150% and adding three (3) months for employment.

**Graduation Rate:** The school’s official graduation rate for each cohort and for the program within the reporting period<sup>2</sup>. The graduation rate is calculated based on the number of students who graduated from the program within 150% of the stated program length.

**Employment Rate:** The school’s official rate of graduate job attainment for each cohort and for the program within the reporting period<sup>2</sup>. The school’s official rate of employment is that which is used to determine compliance with accreditation requirements. The employment rate is calculated based on the number of graduates employed in jobs for which the program trained them.

### FOOTNOTE:

<sup>1</sup> The Bachelor of Engineering with Honours in Systems Engineering (ElectroMechanical Systems) is a joint degree program between DigiPen Institute of Technology Singapore and Singapore Institute of Technology. The first cohort matriculated in 2015; there are no graduation and employment rates to be reported in accordance with ACCSC requirements.

<sup>2</sup> Beginning October 2010 and ending September 2011, based on a July 2017 report date.
